Last site, last post.

[http://www.schwarzbierbude.de/component/option,com\\_fireboard/Itemid,99/func,view/id,2235/catid,79/limit,25/limitstart,450/lang,de/](http://www.schwarzbierbude.de/component/option,com_fireboard/Itemid,99/func,view/id,2235/catid,79/limit,25/limitstart,450/lang,de/)

Btw, this updater has nothing to do with the one from Pilsbierbude, it's a completely new one!

Hi midlander,

our auto updater doesn't need any kind of installation.

Extract it to a directory an run it, that's it.

If you like to "uninstall", simply delete the directory...

cheers,

Uwe
