Last site, last post.

http://www.schwarzbierbude.de/component/option,com_fireboard/Itemid,99/func,view/id,2235/catid,79/limit,25/limitstart,45/0/lang,de/

Btw, this updater has nothing to do with the one from Pilsbierbude, it's a completely new one!

Hi midlander,

midlander wrote:

does any body know how to remove the auto updater....so i can try reinstalling it.....this is a nightmare...

our auto updater doesn't need any kind of installation.
Extract it to a directory an run it, that's it.

If you like to "uninstall", simply delete the directory...

cheers,
Uwe
