## Merge driver profiles

Posted by zasoune - 2016/01/18 23:35

---

Hello everybody,

I am happy to join this impressive community.

I am from France (Pau city) and my english is not so good and regarding German, I can say and write only "Michael Schumacher" :blush:

I have read that it is possible to merge driver profiles data.

So I would be pleased if you can merge Zasoune and RR64\_Zasoune data into Zasoune profile.

Indeed, with friends, we wanted to use "RR64\_" prefix for Assetto Corsa driver name but it is not a good idea regarding ingame standings. So now I will only use "Zasoune" as Assetto Corsa driver name.

Thanks a lot B)

Hello,

the best way is to write a quick message to derDumeKlemmer because probably he won't see this thread and we all don't want that. :)

By the way, it is "Michael Schumacher". :)
