
Ranking

Hello guys

My best times on Lotus Exos 125 S1 and Ferrari 2002 (maybe others) have disappeared from my ranking points. My rank was about 16 and now it is 227 :blink:

Is there a issue ?

Only cars, which are currently available on game servers 1-9 count towards the ranking. Since f2012 and exos are not available anymore the times dont count. However ranking will be updated again once the cars are back on the servers. Cheers

Hi,

pls. check the Base of Evaluation if the dedicated Car/Track-combination is currently used for ranking:
