only server 5,6,7,8 got minor-rating

u can race @ server 1,2,3,4.

if u would like to join the minor servers.

server 8 allows all grade's.

race there avoiding contact with other racer's

and dont cut track.

soon u will be grade A or B and are allowed on the other minor's.

rating go's up faster when u r driving near other car's without making contact.

good luck

greetings

For more information go to <http://www.minorating.com/Project>

MR is a project for users to race in an allmost wrecker-free environment which is in the interrest of us all. It's not that hard to get a good A/B rating. Just avoid crashes and for a while leave servers where there are too many crashkids.

Once you got the required rating all that stuff won't be an issue any more

the fastest way to a clear rating is server 6 (on a lucky day).

stay passive and drive 4-6 laps behind someone (distance around 20meter) and your rating goes up.

but dont brake to late and kiss him ;)
