Hi

I just finished the playing on your server coz its been ruined by two retards who were blocking the road, corners and were ramming every player on your server

Their nicks:

yamcha el dios and .LVC.sergiogamer89

The server name was A!-! AC server www9.schwarzbierbude.de

here is the screenshot

Everyone who was affected by their playing left the server. Now its empty

I have no tools to find their steamID
