Greetings from the USA !. Love the work you guys are doing on the 1988 tracks but I have found some bugs with them and I do not know where I should report them so I will do it here. Apologies if its the wrong place

1 Monza 1988 pit boxes arent working

2 Imola 1988 has sticky armco where the wire fence is attached

In every other way the work is incredible

PS will you be doing the cars to match ?
