
Auto updater downloading question...

Posted by craig86 - 2015/03/11 14:45

Hi all,

The auto updater appears a little different than the one from Pilsbierbude. How can I make sure the auto updater is downloading as fast as possible?

Is it peer-to-peer?

Thanks
Craig86

Hi Michi,

No it's been a while since I donated. I just wanted to make sure I had it set up to download as fast as possible. The pils updater had some English and more options to explore the program.

Thanks for responding
Craig

This autoupdater got created from scratch and is currently only available on german (i hope there will be an english version too).

For your download-"problem": You have to donate for every single "bude" for full downloadspeed in its autoupdater. You don't get full downloadspeed here on the schwarzbierbude, if you only donated for the pilsbierbude.

PS: I'm currently working on an information sheet for new users on english and german in wich you should also find more information.
