
grip % ?

Geschrieben von craig86 - 15.04.2015 00:57

Why do the grip %'s differ between servers? I guess this is some facet of Asseto Corsa that is changeable?

I'm just wondering the reasoning behind it.

Thanks
Craig

Aw: grip % ?

Geschrieben von moritz1998 - 15.04.2015 07:19

All our Servers have 100% Grip except the Nordschleife Server, because at the Nordschleife it is much more real with less Grip.
Of course at the other Servers would it be much more real too, but a lot of our members want to drive with constant 100% Grip.

Greetings
Moritz

las mal die unrealistischen GT's weg, dann paß't 100% grip.
Die kñnnen an der Decke fahrn! (2,4G Querschleunigung)

Gruß Aelbler271
