
DRM REVIVAL every monday at SIM RACING SYSTEM

Geschrieben von dmatzies - 20.09.2019 10:55

The DRM MODDING TEAM is pleased to inform you that with the DRM REVIVAL MOD for AC a series of 6 races at Sim Racing System (SRS) will be conducted. SRS was designed to allow simracers from all across the globe to enjoy some of their favourite sims on a regular basis, in a fair environment.

Initially designed as a tool to reduce the workload of league management, SRS quickly developed into what it is today, an independent platform that supports the most popular titles: Assetto Corsa, Raceroom, rFactor 2 and Automobilista. SRS is a fully system automated and works 24/7 with races every hour, meaning that all server settings, race results, standings, ratings etc. are automated.

You can find more information at <http://www.simracingssystem.com/>

The start of the series will take place on 23.09.2019 and will include a total of 6 races, which will take place on Mondays. Registered members at SRS will receive a special price for the purchase of the DRM REVIVAL MOD via our homepage <http://www.drm-modding-team.com>

Please note the announcement (will publish on friday) in the forum at <http://www.simracingssystem.com>

Â

Your DRM MODDING TEAM wishes you good luck at the races.
